

Never miss another patient call. Even at 2 AM.

Your front desk can't answer every call — but every missed call is a lost patient. Sunshine Dental answers 100% of your calls with a natural-sounding AI receptionist that books appointments straight into your calendar, 24/7. Your team manages it all from one clean dashboard.

The problem

- **30%+ of clinic calls go unanswered** — at lunch, after hours, during busy mornings
- Every missed call is a patient who books with the dentist down the street
- Staff juggle spreadsheets, a separate calendar, and a phone that never stops
- The front desk is too busy on the phone to care for patients in the room

The solution

AI Voice Receptionist — answers every call, books/cancels/reschedules, FAQs, multilingual.

Staff Dashboard — calendar, patients, appointments & every call in one screen.

Live Calendar Sync — books only from real availability. Zero double-bookings.

Total Transparency — every call summarized, transcribed & sentiment-scored.

What you get

- 24/7 call answering — nights, weekends, overflow
- Self-service booking in seconds
- Smart calendar — hours, breaks, vacations, drag-and-drop
- Automatic patient records
- Call logs with full transcripts
- Multilingual support & role-based access

Before & after

Before Sunshine Dental	After Sunshine Dental
Calls go to voicemail after hours	Every call answered, 24/7
Patients wait on hold	Instant, natural conversation
Double-bookings & scheduling errors	Live calendar, zero conflicts
No record of what was promised	Full transcript of every call
Staff buried in phone calls	Staff focused on in-person care

How it works

1**Patient calls**

AI receptionist answers and has a natural conversation.

2**AI books it**

Checks live availability, reserves the slot, captures details.

3**Team takes over**

Everything appears in the dashboard, ready for the visit.

Ready to stop losing patients to missed calls?

We'll show you a real call, booked end-to-end, in under 10 minutes.

 **Book a Live Demo**
